

Clinical Coding with Synapse Medical Services

Synapse Medical Services is an Australian owned company excelling in remote clinical coding solutions for hospitals of any size. We offer service solutions for both paper based and electronic medical records for long term, short term or intermittent engagements.

Synapse codes at a >95% DRG accuracy, can deliver files within 24 hours and offer one of the most competitive and affordable prices in the Australian market.

Electronic Records

- 

1. Provide VPN access to your EMR system

Once you've signed up we will need VPN access to your electronic medical records that require coding.
- 

2. Synapse login and code - you can watch us code within your system!

Experienced Synapse coders will code episodes directly on your system.
Synapse maintains a >95% DRG accuracy.

Paper Records

- 

1. Upload your files

Once you've signed up, we provide you with a safe and secure portal through the Synapse website to upload your records for coding.
- 

2. Synapse codes and notifies you when complete

You will receive an email notification with a safe and secure download link to access your coded files.
- 

3. Retrieve your coded files

Login and securely download your coded files. Synapse maintains a >95% DRG accuracy for its coding.

Your records have now been efficiently coded!
